

**The One Event for Metal Construction
Products, Technologies and Solutions**

**METALCON 2012 Conference/Call for Presentations
Deadline for Submission: February 17, 2012**

METALCON International 2012 will be held October 9 – 11, 2012 in Rosemont, Illinois at the Donald E. Stephens Convention Center. METALCON offers exciting opportunities to learn about the newest metal building materials, new applications and new ways to factor metal into the design-build mix, through an exciting selection of seminars and special programs.

If you are interested in speaking, please submit your seminar descriptions and biographical details no later than **February 17, 2012**. Or if you have specific questions regarding METALCON, please contact **Claire Kilcoyne** at **617-965-0055 x134** or **ckilcoyne@psmj.com**.

As you consider a seminar proposal, keep in mind that METALCON features seminars that pertain to the technical use of metal in construction. For example, information that is stimulating, innovative and state of the art in metal roofing, steel framing, green building or building performance are just a few of the categories of programs offered. Proprietary information about company specific products or small market segments is not acceptable submissions for presentation.

METALCON 2012 Conference/Call for Presentations

Indicates field is required
