**FOR IMMEDIATE RELEASE**

**METALCON Launches Project Photo Competition**

*Highlighting the Use of Metal in Design and Construction*

(Newton, Mass., – August 25, 2021) — [METALCON](#) launches a metal in design and construction project photo competition at this year’s annual conference and tradeshow in Tampa from Wednesday, Oct. 6 - Friday, Oct. 8.

Architects, designers, contractors, manufacturers and owners are invited to submit high-quality photos of their best, coolest, most interesting and inspiring projects that feature metal in the interior OR exterior design in one of the following categories:

- Roofs
- Walls
- Interiors
- Ornamental/Architectural Features

A panel of judges comprised of the Metal Construction Association (MCA) council chairs and other metal construction and design industry experts will determine one winner in each of the four categories with one grand-prize winner. Entries will be judged based on the use of metal in design and construction communicated through photographs, not photo composition. Entrants may submit multiple projects. Each project requires its own entry form and photo. Submissions including photo and entry form must be received by September 2.

Top entries will be displayed in the METALCON Metal in Architecture Gallery at the Tampa Convention Center during the show. Photos selected for inclusion in the gallery will be automatically entered to win. All winners will be announced at METALCON, and the grand-prize winner will be awarded a \$1000 cash prize.

To enter, register your project at [www.metalcon.com](http://www.metalcon.com) or [go here](#). Project photo’s must be in color and high-resolution; [download the specs sheet for more information](#).

“We are excited to launch this competition and also create the ultimate display of projects that illustrate the beauty, durability and functionality of metal in all kinds of architecture, from fire houses and truck stops to museums and universities at the only global event dedicated exclusively to the application of metal in design and construction,” said Judy Geller, METALCON’s Vice President of Tradeshow.

**About METALCON**

METALCON is the largest international event in the metal construction and design industry. Established in 1991, it’s the only annual tradeshow and conference devoted exclusively to the application of metal in design and construction. Contractors, architects, developers, owners, fabricators, manufacturers and suppliers from more than 50 countries attend each year. Industry experts from 200 leading companies exhibit the latest products, solutions and game-changing technologies, while sharing their knowledge with attendees. METALCON’S success is based on a dynamic exhibit hall, extensive educational programs and interactive learning opportunities. Produced by PSMJ Resources, Inc., this year’s event takes place at the Tampa Convention Center, 333 S. Franklin St., Tampa, FL 33602. For more information, visit [www.metalcon.com](http://www.metalcon.com) or [register here](#).
