

FOR IMMEDIATE RELEASE

METALCON 2022 Takes Place in Indianapolis *Registration Now Open!*

(Newton, Mass., – April 11, 2022) — Registration is now open for METALCON 2022, the only global event dedicated exclusively to the application of metal in design and construction. This year’s conference and tradeshow takes place at the Indiana Convention Center from Wednesday, Oct. 12 – Friday, Oct. 14, 2022, with pre-show workshops beginning on Tuesday, Oct. 11.

Home to the most famous race in motorsports, the Indy 500, METALCON 2022 will “roar” into Indianapolis (Indy) for the first time in the show’s more than 30-year history.

Jeff Irwin, executive director of the Metal Construction Association’s (MCA) Insulated Metal Panel Alliance and active association member for 25+ years, believes this Midwest city is poised to attract attendees from several major construction markets.

“Located in the heart of America, Indianapolis is within 750 square miles of 75% of the manufacturing distribution space in the U.S.—a great pull for contractors, architects, building owners, manufacturers and suppliers,” said Irwin. “From Buffalo west to Chicago and Nashville south, not to mention Cleveland, Pittsburgh, Columbus and Detroit, it’s an easy drive from major cities throughout the Midwest.

Over three days, attendees will have the opportunity to:

- Connect with 200 + exhibiting companies showcasing a variety of metal construction and design equipment, products, services and solutions
- Receive top-notch education from industry experts and influencers presenting the latest advances, innovations and best practices in metal construction
- Earn continuing education credits
- Discover the newest and most innovative advancements in metal construction
- Explore revolutionary products, techniques and applications
- Network among the largest annual gathering of the metal construction industry

NEW for 2022—the Metal Building Marketplace; NRCA ProCertification® Metal Panel Roof Systems Hands-on Performance Exams; and the MCA Awards. Making a return this year—The Architect’s Experience; IMP Pavilion; the METALCON Top Products Awards; and more networking opportunities than ever.

“We are excited to host METALCON in Indianapolis this year,” said Judy Geller, METALCON Show Director. “It is a very attractive city for conventions. The Indiana Convention Center is connected to more downtown hotel rooms than any other city in the nation, making it convenient for convention-goers to access meeting space, restaurants, the downtown shopping mall and hotels, without even stepping outside, not to mention the city’s walkability, affordability and its central location.”

About METALCON

METALCON is the largest international event in the metal construction and design industry. Established in 1991, it’s the only annual tradeshow and conference devoted exclusively to the application of metal in design and construction. Each year, contractors, architects, developers, owners, fabricators, manufacturers and suppliers from more than 50 countries attend. Industry experts from 200 leading companies exhibit the latest products, solutions and game-changing technologies while sharing their knowledge with attendees. Produced by PSMJ Resources, Inc., in partnership with the Metal Construction Association, METALCON’s success is based on a dynamic exhibit hall, extensive educational programs and interactive learning opportunities. For more information, visit www.metalcon.com or call 800-537-7765.
