

**FOR IMMEDIATE RELEASE**

METALCON Announces Top Products Award Winners

(Newton, Mass., – Sept. 07, 2022) — [METALCON](#), the metal construction industry's only global event for metal construction and design products, technologies and solutions, announces the METALCON Top Products Award winners.

This year's exhibitors were invited to nominate their top metal products in one of 15 product categories. Products must have been introduced to the market after Jan. 1, 2021, and its manufacturer must be a 2022 METALCON exhibiting company. Winners were determined by an electronic vote.

The **2022 METALCON Top Products Award** winners are:

Accessories: Classic Gutter Systems LLC – [Radius Gutter](#)

A custom seamless radius gutter is more esthetically pleasing and worry free—the perfect solution for both historical and new construction applications. The company's proprietary process allows them to manufacture virtually seamless radius gutters in Aluminum, Copper and GALVALUME.

Insulation and Weather Barriers: ADFAST – [Adseal DWS 4580 Series](#)

Adseal DWS 4580 is a one-component adhesive sealant that vulcanizes into a durable, resilient rubber silicone when exposed to moisture and is used for caulking, sealing and electrical insulation applications. Recommended for window and door installations, it adheres to most materials and has very little odor.

Paint and Coatings: Chemcoaters – [InterCoat® ChemGuard-AG](#)

A hot dipped galvanized G40 substrate coated with ChemGuard-AG can out-perform a G235, while delivering savings of up to 50% on zinc extras. This revolutionary coating also allows steel to be formed dry in most cases, extends die life and offers cut-edge/self-healing protection.

Rollforming Equipment: CIDAN Machinery Group – [TD Double Folder](#)

This new technology addresses top issues facing the fabrication industry today. Together, CIDAN and Thalmann have made modular automation in architectural metals possible—this type of automation has never been on display before at METALCON.

Roofs: Novagard – [NovaFlex Metal Roof Repair & Patch Mastic](#)

NovaFlex Metal Roof Repair and Patch Mastic is an exceptionally versatile, tough yet flexible, mastic and roof sealer designed for repairs to metal panels, metal roof systems, gutters, and other metal buildings/structures. It cures quickly and provides immediate waterproofing for short-term, long-term, and emergency repairs.

Safety: Ridgeline Safety Systems – [Ridgeline Safety Anchor](#)

This anchor system is a permanent roof anchor that fits under the ridge cap and under the metal. Used for both residential and commercial, it allows anyone who needs to be on a roof a place to tie off. A "hidden anchor version" is available with the TRIM 1st system for steel slopes – 6/12 and up.

Structures: Roof Hugger – [Roof Hugger Retrofit Sub-Purlins](#)

These sub-purlins represent the first structurally correct metal roof retrofit framing members specifically designed to conform with existing industry standards. They are made of the same thickness and tensile strength structural steel as the existing building, plus they have been tested as a system on typical metal building framing, providing proven performance for design and code compliance.

(more)

Technology: RoofersCoffeeShop® – [MetalCoffeeShop™](#)

MetalCoffeeShop is an online community consisting of a progressive and informative website, podcasts, webinars, articles, classifieds and so much more that will engage the metal industry. Focusing on all metal, including roofing, walls, HVAC, gutters and more, this site delivers information that builds businesses while enabling ongoing conversation.

Walls: ATAS International, Inc. – [Omawall PL with EVO™](#)

Omawall PL with EVO™ is an architectural plate panel, manufactured in .10 thick aluminum – a great choice for high-end application, and is made fully of non-combustible materials. EVO™ is a patented panel extrusion attachment developed by Carter Architectural. Panels are prefabricated and field-cut, saving on installation time and costs by avoiding field-fabrication.

Construction Tools & Equipment: Triangle Fastener Corporation – [PANEL-TITE® Burr Buster](#)

PANEL-TITE with patented Burr Buster thread is now available with the ZAC Zinc/Aluminum head. It is the most compatible metal-to-wood screw for attaching AZ55 coated steel panels. The performance of the patented thread and point benefits panel manufacturers, installers and building owners by minimizing burrs, which reduces corrosion and the potential for leaks along with increasing the resistance to back-out.

“We are very excited to announce our METALCON Top Products Award winners and showcase the industry’s top products and technologies at our show in Indianapolis,” says Judy Geller, METALCON’s Vice President of Tradeshows.

Award winners are invited to showcase their top products with special product recognition at their booths in Indianapolis. Attendees will be invited to vote on-site for their top three choice products at www.metalcon.com or via the METALCON mobile app. The **METALCON People’s Choice Top Three** award winners will be announced at “The Deck” on Friday, Oct. 14 at 12:30 p.m.

METALCON 2022 takes place at the Indiana Convention Center, Wednesday, Oct. 12 – Friday, Oct. 14, 2022 with pre-show workshops beginning on Tuesday, Oct. 11.

About METALCON

Established in 1991, METALCON is the only annual tradeshow and conference devoted exclusively to the application of metal in design and construction. METALCON’S success is based on a dynamic exhibit hall, extensive educational programs and interactive learning opportunities. Produced by PSMJ Resources, Inc., in partnership with the Metal Construction Association, this year’s show takes place in Indianapolis from Oct. 12 to 14. For more information, visit www.metalcon.com.
